CHARACTER in an automobile refers to those qualities which are only apparent after long continued use. Theft it is that a car's real worth becomes apparent. The worthiness of Studebaker, their ability to render long, efficient service is best demonstrated by the fact that 80% of them are purchased by those who have previously owned other cars.

This because the honesty of Studebaker construction, the superiority of Studebaker engineering skill is shown by the faithful performance of Studebakers in actual use.

The superb Studebaker motor is so beautifully made that it gives masterful power at a minimum consumption of gas, line—the perfect balance of the Studebaker chassis assures remarkably long tire mileage.

Let us tell you the story in detail—let us explain the inward reasons for this wonderful Studebaker character.

Police Department Promulgates Rules to Govern Motor and Horse Drawn Vehicles in Streets of Chicago.

The following proclamation calling attention to the city ordinances governing motor and horse-drawn vehicles has been promulgated by the Police Department for the regulation of street traffic in Chicago:

Article I—Definitions.

Section 1. The word "vehicle" includes equestrians, led horses and everything on wheels or runners, except street cars and baby carriages.

Sec. 2. The word "horse" includes all domestic animals.

Sec. 3. The word "driver" includes the rider or driver of a horse, the rider of wheels and the operator of a motor vehicle or street car.

Article II—Obedience.

Section 1. Drivers of vehicles and street cars must at all times comply with any direction, by voice or hand, of any member of the Police Force, as to placing, stopping, starting, approaching or departing from any place; the manner of taking up or setting down passengers, loading or unloading goods in any place.

Sec. 2. Ignorance of these rules shall furnish no excuse for disregarding them.

Article III—Pedestrians.

Section 1. Pedestrians should remember that while they have the right to cross the street in safety, the streets are primarily intended for vehicles, and they should therefore cheerfully conform to all the traffic rules and thereby contribute not only to their own safety and comfort but facilitate the movement of traffic as well.

Sec. 2. Pedestrians should never step from the sidewalk to the street without first looking in each direction for approaching vehicles.

Sec. 3. Pedestrians should never cross streets except at regular crossings and at right angles.

Sec. 4. Pedestrians should wait for the signal of traffic policeman whenever one is stationed and move in the direction of the traffic only.

Sec. 5. Pedestrians should be particularly cautious in crossing alleys.

Article IV—Drivers' Signals.

Section 1. Before slowing up or stopping drivers shall signal to those behind by raising the whip or hand vertically.

Sec. 2. In turning while in motion, or in starting to turn from a standstill, a signal shall be given by indicating with the whip or hand the direction in which the turn is to be made.

Sec. 3. Before backing or slowing up ample warning shall be given, and while backing unceasing vigilance must be exercised not to injure those behind.

Sec. 4. One blast of a police signal indicates that East and West traffic must stop and that North and South traffic may proceed.

Two blasts that North and South Traffic shall stop and East and West traffic may proceed.

Three or more blasts is a signal of alarm and indicates the approach of danger.

Article V—Right of Way.

Section 1. Police, Fire Department, Fire Patrol, Traffic Emergency Repair, Ambulances and United States Mail vehicles shall have the right of way in any street and through any procession.

Sec. 2. Horse-drawn vehicles shall have the right of way over power-driven vehicles, street cars excepted.

Sec. 3. The driver of a vehicle, on the approach of any fire apparatus, shall immediately draw up said vehicle as near as practicable to the right hand curb and parallel thereto and bring it to a standstill.

Article VI—Street Cars.

Section 1. The driver of a street car shall immediately stop his car and keep it stationary upon the approach of any fire apparatus.

Sec. 2. Street cars shall have the right of way, between cross streets, over all vehicles.

The driver of any vehicle proceeding upon the track in front of a street car shall turn out upon signal of the driver or conductor of the car.

Sec. 3. No vehicle or street car shall so occupy any street as to interfere with or intercept the passage of other cars or vehicles.

Sec. 4. During blockades or stoppages a clear space of ten feet shall be kept open between cars opposite the alley or the center of the block if there be no alley.

Article VII—Speed.

Section 1. No vehicle shall proceed at any time at a greater speed than the law allows and which is safe and proper under the conditions then obtaining.

Sec. 2. No vehicle shall cross any street or avenue or make any turn at a speed rate exceeding one-half its legal speed.

Sec. 3. No vehicle shall emerge from an alley, stable or garage at a pace faster than a walk; at the latter places an attendant should precede the vehicle to give warning.

Sec. 4. Horse-drawn vehicles and pedestrians should habitually cross the street intersections as promptly as circumstances permit. Teams moving at an unnecessarily slow walk across street intersections greatly impede traffic.
